Jon,

Please update the CR form as noted below. WSDOT is OK with the redlines for this Temp Soil Nail Wall.

Thank you,

John Lefotu, PE PMP

Thank you for forwarding the updates.

Couple things that needs to be buttoned up before going to RFC:

- The report should be finalized for RFC and not include redlines.
- Need to revise the response to #7 (delete the first part all the way through the words “....However, to settle this issue”)
- #8 needs to delete the word “min.” and use 6” for nail diameter and change the final code to an “A”.
- Our original comment for #6 is missing and needs to be added back in.

Thanks,
Elizabeth

Added Elizabeth and John.

All – we are planning to RFC this set this week. Please confirm your comments are addressed.

Thanks

Jon Gorham
